Full Performance DVDs (Full Screen) _____ @ \$27.00 each = \$ _____

ORDER TOTAL \$ _____

All DVD players should be able to play either version – how it appears depends on the type of tv, screen, or monitor on which you wish to view it.

Choose the **WIDESCREEN** version if you plan to watch your DVD primarily on:

- A widescreen television (width dimension is significantly larger than height dimension); or
- A personal computer; or
- A portable/self-contained DVD player.

Choose the **FULL SCREEN** version if you plan to watch your DVD primarily on:

- A standard television (width dimension is only slightly larger or the same as height dimension).

(Playing a widescreen version on a standard full-screen television will result in approximately 20% of the picture being cut off on both the right and left side; playing a full screen version on a widescreen television, personal computer, or portable DVD player will result in an image that is stretched out beyond the accurate proportions – not very flattering to the actors on stage!)
